

ABUBAKAR JAMILU BASHIR

Full-Stack Software Engineer | Cybersecurity Professional | Fintech Founder | Digital Skills Trainer

Email: ajamilubashir@gmail.com | Phone: +234 2014542876 | Kano State, Nigeria

PROFESSIONAL SUMMARY

Multidisciplinary technology professional with experience in software development, cybersecurity, digital skills training, and technology education. Skilled in Laravel, Node.js, React, Next.js, Flutter, API development, and modern web technologies. Experienced in delivering digital literacy and cybersecurity programs for communities, schools, and organizations. Passionate about building scalable technology solutions and empowering individuals through technology education.

MY STORY

Born and raised in Kano State, Nigeria, my journey into technology was built through persistence, self-learning and determination. Growing up with limited resources, I transformed challenges into opportunities. From learning programming on borrowed devices to studying cybersecurity and building digital products, every obstacle strengthened my commitment to innovation. Today, I develop software solutions, train communities in digital skills and cybersecurity, and build platforms designed to create opportunities for others.

CORE SKILLS

• Laravel (PHP) • Node.js • React.js • Next.js • Flutter • JavaScript • REST APIs • MySQL • Git & GitHub • Cybersecurity Awareness • Digital Literacy Training • Networking • Robotics Education • Public Speaking • Leadership • Community Mobilization

PROFESSIONAL EXPERIENCE
